

How Do I Begin to Develop My Website?

- **Consultation** – New Exclusive Webs will meet with you for a consultation free of charge. The meeting will last approximately 30 – 45 minutes. At this time we will discuss your objectives and needs, help you organize your thoughts, and determine if you want your site to be informational or if you wish to sell services and products. We will listen to your needs, your ideas, your dreams and help you plan your *exclusive* website.
- **Estimate** – After our initial consultation meeting, a deposit of \$100 is required along with a signed contract before design work can begin. The deposit will be deducted from the first month's bill. We will provide you a list of questions from which we will develop a navigation outline and a website strategic plan along with a proposed estimate. Each site is custom designed and therefore there is no "basic" package. One size does not fit all. Your website will be designed *exclusively* for you! The pricing for your site will be determined by you, depending on what you choose. If you have a specific budget amount for your website, we will work with you to design the best site we can and stay within your financial guidelines. As a professional web designer, we will be able to expand and develop your site as your business grows.
- **Registration** – We will help you in choosing a domain name and will register that name for you. It is important to keep the name as simple as possible -- something that can be easily remembered and that your clientele will associate with your company, such as <http://www.mycompanyname.com>.
- **Hosting** – Once you've chosen your domain name, we will choose and arrange for the best company to host your site.
- **Design Construction** – After you submit text, photographs, product information, company logos, contact information, history, directions, and any additional information for your site, we will provide preliminary drafts of your website for your review. If you do not have current pictures or the time to take them, we can come on site and arrange to take digital photographs. When all changes and modifications are made, your site will be uploaded on the internet for your final review. After you are completely satisfied, your site will "go live" and be uploaded to the internet.
- **Payment** – Our rate for web designing is \$35 per hour. Bills will be submitted at the end of each month for work done during that month. We strive to provide you with the quality you deserve at a rate you can afford. There are many factors that can save design time subsequently saving you money. For additional information on time saving elements, visit our website at www.newexclusivewebs.com and go to the rates page.
- **Site Maintenance** – Once your site is up and running, we are available to provide regular maintenance, updating and modification to your site. To be successful, a site must be updated and maintained on a regular basis.

Our goal at New Exclusive Webs is to design a professional custom website *exclusively* for you that will meet your company's needs. Contact us online at www.newexclusivewebs.com, by e-mail at vnew@newexclusivewebs.com or by phone at 859-494-0845.
